

# CYCLING

## India Challenge

Adventure  
**World**

## *Introduction*

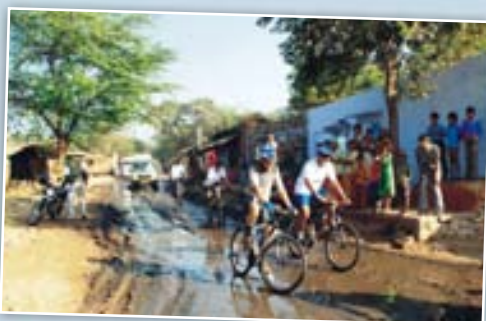

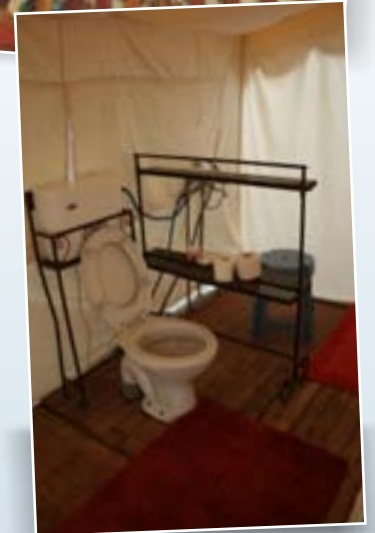

A diverse state of Rajasthan is as throw from both Delhi and Agra, the latter famed for the Taj Mahal. It is home to the Rajput warrior clan whose legacy is an amazing collection of forts and incredibly impressive castles and palaces. India evokes images of the shimmering white marble domes of the Taj Mahal, women draped in vibrant, colourful saris, sacred cows wandering freely through the streets and spicy curries... Rajasthan is all this and much more.

Join us as we leave the highways behind and cycle through villages where we will share the road with goats and camels - perhaps even an elephant; see local women pumping water at the communal well and be overwhelmed by magnificent Moghul forts rising above deserts and towns.

From the delights of Jaipur we adjust to the pace of the buffalo cart from handlebar level, savouring a

way of life that is still in harmony with the seasons. The roads are flat, the days not unduly strenuous and we provide a backup vehicle for your convenience. There will be ample opportunity to witness the spectacular Taj Mahal at sunrise and explore Fatehpur Sikri before returning to Delhi where the trip concludes.

Given our grounding and rock solid positioning, expertise and reputation private companies have engaged us as their tourism consultants. We are adept at arranging trips for couples, groups of friends, academic institutions, corporates, and wide variety of non-profit groups. Some of the groups had up to 200 persons traveling and / or cycling together. We are also uniquely positioned to serve as patron for Cycling for Charity projects.

It will be a pleasure to serve your needs and to have you say "*Adventure World*" is a way beyond the rest.
