

+ Medical Tourism in India

India is one of the best places for the medical treatment. Every year thousand of visitors come to India from around the world just for the medical care.

India offers healthcare services for overseas patients with cost of surgery lower by over 30% and in fact cheapest in entire Southern Asia. Medical tourism in India is emerging very fast as a big opportunity with its low cost advantage, high quality healthcare facilities.

Perfect Travels organizes medical tourism packages in combination with Leisure Tourism. We believe in contacting world fame doctors/specialists as well as hospitals for best possible treatment at very lesser cost when compared with rest of the countries like USA, UK and Thailand.

Eye Laser Operation

(5 days / 4 Nights)

Laser vision correction is a procedure that improves vision by permanently changing the shape of the cornea (the clear covering of the front of the eye) with a laser. Often referred to as LASIK (an acronym for the medical term laser assisted in-situ keratomileusis), it is the most commonly performed type of laser procedure and an effective treatment for a wide range of vision problems.

Before having LASIK, most patients couldn't imagine waking up in the morning and seeing the alarm clock without glasses. They never dreamed they'd be able to drive a car, watch a movie or enjoy sports such as swimming and skiing without contact lenses. Since they were children, this dependence on glasses and contacts has shaped their lives, memories and the way they felt about themselves. Now, these same patients are pursuing life with new confidence, enthusiasm and ease thanks to LASIK. This remarkable procedure takes only a few minutes to perform, but can have a tremendous impact on your life.

Breast Implantation

(5 days / 4 Nights)

Cosmetic procedures are increasingly becoming popular worldwide. Medical Tourism has a special place for aesthetic procedures as these are not covered through Insurance. Discreetness is an added advantage.

Breast implants are used primarily for:

- To replace breast tissue that has been removed due to cancer or trauma.
- If it has failed to develop properly known as hypomastia, amastia which may be one sided i.e. unilateral or both sides.
- Tuberous breast deformity.
- Primary augmentation to increase breast size for cosmetic reasons.
- Revision-augmentation (revision surgery to correct or improve the result of an original breast augmentation surgery).

Breast implants are of various types but now silicone gel filled are preferred due to maintenance of shape for a long time as well as safety proved after years of usage.

Liposuction Fat Reduction without Skin

(5 days / 4 Nights)

Cosmetic procedures are increasingly becoming popular worldwide. Medical Tourism has a special place for aesthetic procedures as these are not covered through Insurance. Discreetness is an added advantage

Liposuction (also known as Body Contouring) is used to improve body image and shape as a result of excessive body fat. This may be with correction of over hanging skin or generally without. Areas affected can range from the abdomen, thighs and buttocks, to the neck, backs of the arms and elsewhere. Fatty bulges which are persistent after dieting like in the sides (love Handles) are sucked out using a special apparatus through small holes in the skin.

Root Canal Dental Treatment

(5 days / 4 Nights)

When the cavity extends beyond the Enamel and Dentin which progresses to the Pulp, it gives rise to severe pain.

In such a situation, before a filling can be done the infection has to be removed from the canals of the tooth. This treatment is called a Root Canal Treatment. The tooth is made numb so that there is no pain and the canals are cleaned out.

Root Canal Treatment is basically a Blind procedure because we can not visually see where we are working. Despite this the success rate is worth the while to save the tooth instead of getting it extracted.

Day-3 Delhi

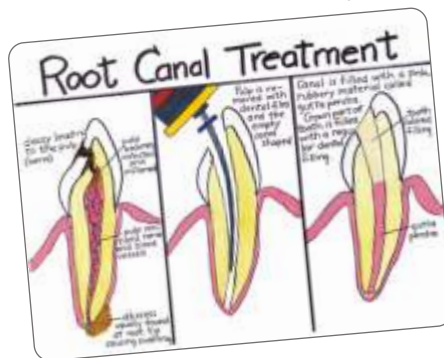

You will be taken for Root Canal treatment for "One Tooth" to the Clinic/ Hospital to be performed by renowned Doctor. Pickup and Dropoff to/fro will be provided by us. Overnight: at Bajaj Indian Homestay, Delhi.

Day-4 Delhi

Full Day free to relax. Overnight: at Bajaj Indian Homestay, Delhi

Day-5 Depart Delhi

Today you will be transferred to Delhi Airport to connect onward International flight.

Above includes the following services:

- Accommodation of Normal Rooms at the hotel mentioned or similar with Breakfast and taxes.
- Transportation in an air-conditioned Tata Indigo/Marina Car.
- Cost of consultation with Doctor and Root Canal for one tooth only.
- Government of India service Tax
- All taxes and parking fee

Above excludes:

- Airfares and Airport Taxes
- Lunch & Dinner or any meal thru/out
- Camera or Video permits
- Expenses of a personal nature

Accommodation (3 star level)

Delhi - Bajaj Indian Homestay or Similar.

Notes: a. Checkin / Checkout Time is 1200 hrs "Noon Time".

b. In case of root canal treatment for more than one tooth please contact us for supplement cost for treatment & accommodation.
